PROFESSIONAL EXPERIENCE

Donuts Bangkok - Intern Frontend Developer; Bangkok (TH)

May 2023 - August 2023

- Design and develop a feature called “Salary Adjustment” for clients
 - Developed frontend features using React and Antd React component library, focusing on UI development.
 - Collaborated with backend developers to design and implement RESTful APIs, enhancing application functionality.
 - Participated in team meetings to discuss project requirements and provide updates on development progress.

EDUCATION

Chulalongkorn University, Faculty of Industrial Engineering (IE)

August 2020 - May 2024

Concentrations: Software development, UX/UI, Human-Computer Interaction

- Usability Improvement of Payroll Service
 - Identified and addressed three key service pain points through the application of Customer Journey Map and Usability Testing methodologies.
 - Designed and developed an enhanced version of the payroll service using Figma for design and React, Node, and MongoDB for implementation.
 - Conducted comprehensive online usability testing with 20 participants, hosted on a dedicated platform, resulting in notable improvement in efficiency and effectiveness.
- IBM&CO Official Website
 - Developed a website, using React and Firebase, for announcing course news and side projects to 90 students
 - Implemented project management practices, including monitoring merge requests on GitHub and coordinating with team members to ensure seamless collaboration.
 - Provided guidance and support to team members, serving as a consultant for technical issues and project strategies.
